EDUCATION

- **SRM Institute of Science and Technology** Chennai, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 9.57 *July 2022 - June 2026*
- **Lalchand Milapchand Dadha Senior Secondary School** Chennai, India
High School MPC ; Percentage: 76.00% *April 2021 - June 2022*

SKILLS SUMMARY

- **Languages:** Python, HTML, CSS, JavaScript, C, C++
- **Frameworks:** TensorFlow, Scikit-learn, NLTK, React, Django, Flask, Streamlit
- **Databases:** SQLite, MySQL, PostgreSQL
- **Tools:** GIT, GitHub, Visual Studio Code, Ananconda
- **Soft Skills:** Leadership, Problem-solving, Adaptability, Continuous learning, Time Management, Analytical skill, Communication Skills, Event Management, Public Speaking

PROJECTS

- **Personal Expense Tracker:** Developed a full-stack web app built with Django, Django REST Framework, and token-based authentication, backed by PostgreSQL for secure and scalable data storage. Provides CRUD APIs and a responsive front-end for user-specific expense management. Implements MVC architecture, modular RESTful endpoints, and a dynamic UI for efficient personal finance tracking.
- **Multiple Disease Prediction System:** Developed a Flask-based web application that predicts multiple diseases using trained machine learning models. Implemented data preprocessing with Pandas and NumPy, and trained models in Google Colab. Designed an interactive frontend using HTML, CSS, JavaScript, and jQuery. Deployed the app on Heroku with a modular structure including Procfile and requirements.txt. Enabled real-time predictions based on user medical inputs with seamless model integration.
- **Superstore Sales Dashboard:** Developed an interactive data analytics dashboard using Streamlit, Plotly, and SQLAlchemy to visualize and manage Superstore sales data. Implemented dynamic filters, CRUD operations, multi-page navigation, and real-time updates, enabling efficient data exploration and analysis. Integrated export functionality for CSV/Excel, providing actionable insights for decision-making.
- **Real-Time Chat Application:** Developed the frontend of a real-time chat app using React, with support for instant messaging and online user tracking via Socket.io. Implemented a responsive UI using TailwindCSS and DaisyUI, and integrated JWT-based authentication with state management using Zustand. Focused on delivering a smooth user experience with clean UI and error handling.
- **Contract Analysis — AI-Powered Legal Insights:** Contributed to the frontend development of an AI-driven legal contract analysis platform using Next.js 14, TypeScript, and Tailwind CSS. Built reusable UI components, responsive layouts, and seamless user workflows for contract upload, clause review, and risk visualization. Ensured a clean, intuitive interface aligned with modern design standards.

HACKATHONS & COMPETITIONS

- **Adobe India Hackathon 2025 (via Unstoppable):** Advanced past Round 1 in a national-level competition by contributing to the conceptualization and development of an intelligent document understanding solution.
- **SRM Datathon 2024 (Organized by GUVI):** Participated in a 24-hour team event to build a Multiple Disease Prediction System using Python, Flask, and Machine Learning. Was responsible for training the machine learning model and integrating the backend logic to deliver a functional prototype within the timeframe.

CERTIFICATIONS

- **Python Programming and Data Exploration (NIIT, 2022):** Completed a 44-hour, hands-on training course covering Python fundamentals and applied data analysis techniques.

VOLUNTEER EXPERIENCE

- **Sponsors Lead at Campuslife at SRM** *August 2023-July 2024*
A Non-Technical cultural club at SRM Institute of science and Technology
- **Co-ordinator of NSS Club at SRM** *Jan 2023 - July 2024*
A Govt-based Club at SRM Institute of Science and Technology

LANGUAGES

- **English:** Fluent
- **Telugu:** Native
- **Tamil:** Fluent
- **Hindi:** Elementary Professional
